4.6 Motion: Approval of withdrawal of \$40,000 from the GSA account

WHEREAS GSA executives proposed the withdrawal of \$40,000 from the GSA account to distribute a special GSA bursary due to a significant number of increases of need-based bursary applications from the graduate students financially hit hard by since the start of the COVID crisis which was approved by the GSA Finance and Budget Committee.

BE IT RESOLVED THAT The request for withdrawal of \$40,000 be accepted for the year ended April 30, 2022, and April 30, 2023.

The President, the VP Finance and Operations, and the VP Academic and Student Affairs spoke on the motion and explained the increased need for financial support since the beginning of COVID. This was requested by the Budget and Finance Committee to give more money in the form of needs-based bursaries. The College of Graduate and Postdoctoral Studies (CGPS) will match the funding. This money previously has not been earmarked for anything.

Question: The wording of the motion needed clarification: is the money for students who applied for bursaries in the 2021-2022 academic year but previously did not receive anything?

Answer: That is correct. The additional money is going to students who applied to the GSA in the 2021-2022 Academic year and because of the demand, not all students were able to be approved. This withdrawal is going toward current Graduate students who have already applied but did not receive any financial aid from the GSA.

Motion to approve the withdrawal of \$40,000/year for the year ended April 30, 2022, and April 30, 2023, from the GSA account for Graduate student bursaries due to excessive demand. (Moradi/Kamal)

5. GSA Executives' Annual Report

5.1 President's Report

Highlights of the report were conveyed to graduate students and was available in the agenda package, as well as posted on the GSA website for review. The President spoke about how much they learned and how much they enjoyed their position, as well as how challenging it was personally and academically. The President also spoke about the importance of the position as a representative of the 4400 Graduate students. The full report is online and is roughly 40 pages. The President thanked all present including council members, executives, office staff, and other administrative roles.

5.2 VP Finance and Operations Report

The VP Finance and Operations spoke highly of the outgoing President as well as the other executives, thanking all of them and speaking highly of the experience as an executive as well as the difficulties that arose. They emphasized their motivation of always trying to consider what was best for Graduate students and trying to improve student life for them. The goal was always to successfully manage the finances and to financially support students where possible. The full report, including meeting attendance, is available online to view.

5.3 VP Academic and Student Affairs

The VP Academic and Student Affairs thanked everyone including all the Councillors, committee volunteers, and all of the current, and outgoing executives for their dedication and commitment to the GSA. The VP Academic and Student Affairs finds himself incredibly lucky to have worked with such a great group of people and is moving into the position of the GSA President for the coming academic year (2022-2023). He spoke of some highlights included in his report as well as his goals for the coming year in his new position and thanked everyone for their hard work.

5.4 VP External Affairs

The VP External Affairs thanked everyone and shared that he really enjoyed his tenure as a part of the GSA. Enormous responsibilities with all of the VP positions, and he is confident that his tenure was handled and was managed to the absolute best of his abilities. The VP External Affairs shared some highlights from the report that is also available to read online. He was particularly proud of their interactions with MPs and interactions with policy-makers. He thanked everyone for the opportunity and for the year.

5.5 Q&A

Question: For all executives: do you think the upcoming challenges are a continuation of current challenges, or what do you think is on the horizon, and what new issues will the incoming GSA Executives face?

President: It was difficult when Grad students are working entirely from home, they don't understand what goes into running the Association, there is miscommunication, and Graduate students are disconnected from the campus community.

Question: Commendation and congratulations to the outgoing executives. We observed members (Chairs and VP Indigenous Engagement) resign and there is concerns about it. Why did this happen? Is it based on the workload? If so, is workload something that should be reassessed?

President: We do not want to comment since they all resigned for very specific and different reasons. It could be workload and spreading duties over more positions could be a possibility, but this is a complex issue with many individual opinions involved.

Question: Is there anything else in the works to assist students as inflation continues to affect graduate students?

President: There will be crisis financial aid available to students as specified by senior leadership at the university. They are pursuing policies with graduate students to ensure a minimum amount of years of funding. This is an ongoing and pressing issue.

The executives have been advocating for graduate students to at least make what someone working at minimum wage would make and four years guaranteed funding for PhD students.

Question: What is the plan for the VP Indigenous Engagement position?

President: The Elections Committee often receives zero nominations and it is difficult to get people to put their names forward. It is important that we are aware and look to engage, but people are not putting their names forward. At this point, we are not sure what the plan is.

Question: Is there a plan regarding unconditional opt-outs for the Saskatoon Transit Fee?

President: This will be a question for the incoming executives, this is an ongoing conversation.

6. Election Results

The Chair acknowledged the work of Candace the Office Manager and the Elections and Referenda Committee. She also acknowledges all those who voted.

7. Introduction of new Executives

1. Call to Order / Opening Remarks

The meeting was called to order at 5:10 PM by GSA *President Mostofa Kamal* followed by a Land acknowledgment. The agenda items for the meeting were compiled after starting the meeting. The GSA president mentioned that following the GSA Bylaws 2022 [2.5.1.11], the VP of External Affairs need to act as recording secretary for the executive meeting.

2. Items for discussion

2.1 Convocation Ceremony:

The executives attending list changed as follows:

Monday, June 6, 2022	None	Mostofa Kamal (President)

2.2. GSA 2022-2023 Handbook (message from the president)

President Mostofa will provide it by June 9, 2022.

2.3. Swag bag items for Fall/Winter Orientation 2022-2023:

The GSA executive agreed to order swag bag items for both fall and winter terms in one purchase order so that items can be purchased at a discounted price. Since budget codes for fall and winter orientation are different, it is recommended to maintain separate purchase receipts for different terms, such as one receipt for fall and one for winter term. Executives have received concern regarding swag bag item's distributed in earlier orientation programs because of their shorter lifetime or durability. Thus, the current executives agreed to purchase items of better quality that will last longer. The committee also decided that the number of swag bag items for the fall and winter term will be less considering better quality items. The VP of Finance informed that the

2022-2023 budget allows the GSA the spend a maximum of \$6,200 for the Fall 2022 orientation program. The GSA executives recommended the VP of Academic and Student Affairs spend up to \$5000 on the Swag bag items and keep \$1,200 for the orientation day event. The executives asked the VP of Academic and Student Affairs to make a draft list of recommended items for the fall and winter orientation program and share it with the GSA executives for further discussion and approval. Since better quality items are considered for the upcoming orientation program, the GSA can afford a limited number of swag bag items in the forthcoming orientation program. Hence, the GSA executives agreed to distribute the swag bag items only among the new students. The GSA will create a registration form for incoming students for swag bag item distribution. The GSA executives also agreed to order a t-shirt for the executives and volunteer for the orientation program.

2.4. Melisa Kyrejto, Academic Affairs Specialist, requested more volunteers for the Academic misconduct hearing board:

The Academic Misconduct hearing board consists of either a GSA executive or a graduate student nominated by the GSA. Generally, the VP of Academic and Student Affairs sits on the Academic Misconduct hearing board. However, because of the busy schedule of the VP of Academic and Student Affairs and occasional conflict of interest (e.g., a student from the same department, personal relationship with accused students, etc.), the hearing board requested more graduate student members so that a substitute of VP Academic and Student Affairs can be found easily. President Mostofa suggested Khaled Zoroufchi Benis, a Ph.D. student in the Department of Chemical Engineering, because of his extensive volunteering and leadership experience with the GSA for the last few years. VP Ozra recommended another graduate student named Bernd from the Chemistry department for the Academic Misconduct hearing board.

2.5. GSA Fall Orientation:

The GSA executives decided to organize the Fall 2022 orientation in person on September 8, 2022, from 10 am to 12 pm at the GSA commons. The VP Academic and Student Affairs will serve as the Emcee of the orientation event, while all other GSA executives will give an introductory speech at the event. Sristy will prepare an orientation presentation that will cover GSA's annual activities, including Holiday Hangout, Three Minute Thesis (3MT) Competition, Annual Tax Clinic, GSA Need-based bursaries, etc. The GSA executives recommended the VP Sristy to consult with the

immediate past GSA President, Rifat Zahan while preparing for the. VP Academic and Student Affairs will share the orientation presentation with the other GSA executives for review and approval by the GSA President. The executive committee decided to serve pizza following the orientation program. VP Sristry will work with the GSA Office Manager to for ordering of the food.

2.6. Organizing a Science Communication Workshop:

The GSA President proposed to organize a day-long Science Communication Workshop for the University of Saskatchewan graduate students in Fall 2022. This workshop aims to train graduate students in better strategies and efficient skills for communicating their research to a broader audience apart from peer-reviewed scientific journals such as blogs, newspaper op-eds, town halls, policymakers, etc. President Mostofa proposed to organize this workshop in the fall so that graduate students can apply the knowledge gained from this workshop in the 2023 3MT competition. The GSA President expressed his desire to identify another University of Saskatchewan graduate student from the 2023 3MT competition so that the champion would maximize the chance of winning the western regional 3MT competition following the success of the University of Saskatchewan's candidate at the Western Regional Competition in 2022. President Mostofa reminded that Antonia Powell, a Master of Science in Applied Microbiology graduate student, who won the western regional Three Minute (3MT®) Thesis Competition 2022 among 16 other graduate students represented by 16 universities from Western Canada. The GSA President will discuss this proposed workshop with the Dean of the College of Graduate and Post-Doctoral Studies (CGPS) and will request financial support to organize this workshop. President Mostofa will prepare a detailed proposal for the proposed workshop and share it with the other GSA executives in the coming months.

2.7. Spring/Summer bursary dates:

The GSA will provide 25 regular need-based bursaries during the Spring and Summer 2022 terms from its regular bursary budget and matched funding from the CGPS. At the 2022 Annual General Meeting (AGM) of GSA, the council approved to draw 40K CAD additional funding from GSA to provide additional need-based bursaries (which will be equally divided into three terms) during the 2022-2023 fiscal year. The GSA executives decided to award ten additional need-based bursaries from the above approved GSA funding. Therefore, during the Spring and Summer of

2022, the GSA will award 35 need-based bursaries. The GSA bursary committee will follow the below schedule to distribute the Spring and Summer 2022 bursaries:

Bursary Application Open: June 8, 2022

Bursary Application Close: June 29, 2022

Bursary Results Announcement: July 4, 2022

2.8.Meeting Date for University of Saskatchewan Faculty Association (USFA):

Professor Nadim Jamali from the Department of Computer Sciences has been elected by the USFA to represent the faculty members at the University of Saskatchewan Board of Governors. Professor Jamali sent an email to the GSA executives expressing his interest in having a formal meeting to hear from the newly elected GSA executives about their list of priorities and advocacies for graduate students during their tenure. Professor Jamali expressed his interest in becoming a supporting person for the GSA and wants to work together to ensure the University of Saskatchewan's academic and leadership excellence. The GSA President informed the GSA executives about the critical role Professor Jamali can play at different governing bodies at the University of Saskatchewan in supporting GSA advocacy works. Upon discussion, the GSA executives were scheduled to meet Professor Jamali on June 10, 2022, at 8:45 am.

2.9.Meeting Date for Health and Dental Plan Coordinator

The GSA President informed the GSA executives about a potential orientation meeting with the Studentcare representative, Mr. Robyn Paches, who oversees the GSA Health and Dental Plan on behalf of the GSA at USask. The GSA President reminded the GSA executives that one of the priorities of the current GSA executive committee is to extend the existing health and dental coverage for graduate students and advocate for broadening of the health practitioners' network. Thus, the proposed meeting is very important where the presence of all executives is required so that detailed discussion can be done with the Studentcare representative. There will be two meetings with the Studentcare representative: the first meeting will be attended by all GSA executives, and the second meeting will be attended by the GSA President and the VP Finance and Operations. The GSA executives mentioned they are available for the meeting on June 20, 22, and

Monthly Activity Report of GSA President, June 2022

Dear Council Members,

Please find the President's monthly activity summary from April 20, 2022, to June 01, 2022, as listed below.

1. President Executive Council/GSA year-end meeting: April 22, 2022

This meeting was scheduled as a farewell meeting for the outgoing GSA executives while introducing the newly elected GSA executives to the President of the University of Saskatchewan and other top-level university administration. At the PEC meeting, the GSA Executives discussed their election platforms based on which they got elected. The election platforms of the 2022-2023 committee are listed below:

- a. To advocate for a minimum guaranteed funding for all thesis-based graduate students not less than the equivalent amount of Saskatchewan's minimum wage salary.
- b. To advocate to ensure a university-wide minimum of four years of guaranteed funding for Ph.D. students and for thesis-based master's students to be three years.
- c. Work with various colleges to help bring down the University of Saskatchewan's median graduation timeline under the U15 median.
- d. Advocacy for the introduction of part-time study opportunities coupled with part-time tuition fee options for part-time students.

- e. To ensure more flexible Saskatoon Transit bus pass (UPASS) services for different graduate students (e.g., opt-out options for remote students, students living in university residences, more frequent bus services within the city, etc.)
- f. To advocate for increased College of Graduate and Postdoctoral Studies (CGPS) bursary grants to match the GSA's additional bursary funding.
- g. Enhancing existing Health and Dental Plan coverages through Studentcare.
- h. Advocacy for broader and faster adoption of Equity, Diversity, and Inclusion principles across different levels of the university services.
- i. Advocacy for the introduction of universal parental benefits for the graduate students (currently, a limited number of colleges offer such benefits at USask).
- j. Advocacy for the introduction of a university-wide emergency graduate childcare bursary.
- k. Advocacy for the reduction/removal of international tuition differential for master's students.

2. GSA President's meeting with Dean of CGPS, April 27, 2022

The newly elected GSA president met the Dean of CGPS, Dr. Debby Burshtyn, at her office and discussed the above election platforms of the 2022-2023 executive committee and expressed his interest in working in collaboration with the dean of CGPS to improve the graduate student experience at the University of Saskatchewan. The dean of CGPS agreed with some of the GSA objectives and expressed her willingness to resolve some other issues in the long run.

3. GSA Need-Based Winter Bursary

The graduate students are passing through an unprecedented financial hardship since the pandemic for many reasons, including rapid tuition fees hike, Canada's record-breaking inflation rate, lack of part-time job opportunities, and limited part-time job hours. The GSA has received an unusually high number of need-based bursary applications over the last two years. Unfortunately, the GSA could only offer need-based bursaries to only 25 to 28 graduate students (approximately 15% of the total applicants) each semester because of GSA's limited financial capacity and matched with CGPS's financial assistance. The GSA

provided a total of 68 bursaries during winter 2022. The GSA wants to thank the council members for their approval of an additional \$40k for need-based bursaries for the winter 2022 term.

During the Spring and Summer 2022 terms, the GSA will provide 25 regular bursaries plus ten additional bursaries from the additional funding (\$40k for the 2022-2023 fiscal year) approved by the GSA council members at the AGM on April 19, 2022. The GSA bursary committee will follow the below schedule to distribute the Spring and Summer 2022 bursaries:

Bursary Application Open: June 8, 2022

Bursary Application Close: June 29, 2022

Bursary Results Announcement: July 4, 2022.

The GSA is grateful to the CGPS for its current financial support for the need-based bursary and advocacy to match the additional GSA bursary funding so that the GSA can provide bursaries to a maximum number of financially struggling graduate students in the upcoming terms. If the CGPS matches the GSA's additional funding for the need-based bursaries, GSA would be able to provide 45 bursaries in each term.

4. Spring-term Swag Bag Distribution

The GSA distributed about 100 swag bags among incoming graduate students in Spring 2022.

5. GSA Handbooks

As part of the Fall orientation activities, the GSA decided to print 800 handbooks for the 2022-2023 academic year.

6. USASK Student Won Western Regional Three Minutes Thesis Competition

The University of Saskatchewan's Master of Science in Applied Microbiology graduate student Antonia Powell won the western regional Three Minute (3MT®) Thesis

Competition 2022 by beating 16 other graduate students represented by 16 universities from Western Canada.

On May 26, 2022, the Vice-President of Research, Dr. Baljit Singh, briefed the committee about his recent visit to Bangladesh and research collaboration between the Bangladesh Agricultural Research Council and with Global Institute of Food Security of the University of Saskatchewan.

5. Planning and Priorities Committee, June 13, 2022

The GSA president attended the Planning and Priorities Committee on June 13, 2022, and discussed the University of Saskatchewan's goals for the next three years. The GSA president pressed the need to focus on improving the University of Saskatchewan's various world rankings. Further, the GSA president requested to re-evaluate increased International Tuition Differential for master's students.

6. University Council Meeting Monthly Meeting: June 16, 2022

The GSA president attended the university council meeting on May 19, 2022, updated ongoing GSA activities, and conveyed concern about two important student issues: 1: Inadequate Services at the Student Wellness Centre and 2. Increasing minimum guaranteed funding for thesis-based graduate students.

The GSA president informed the council members that graduate students are concerned about the limited accessibility of various services at the Student Wellness Centre. For example, students require four to eight weeks to get a doctor's appointment; lack of Walk-In doctor facilities, and a limited number of Counsellors, Social Workers, Mental Health Nurse, Psychologists, and Psychiatrists. After receiving confirmation for the initial appointment following the four to six weeks, students receive frequent cancelations of their appointments at the last minute. Thus, GSA advocated for service improvement at the student wellness center so that students can receive enhanced service for their health needs.

The GSA president presented data about the significant food price increase and Canada's record-breaking inflation rate increase. Thus, the GSA president re-iterated its advocacy for a minimum guaranteed scholarship for all thesis-based graduate students not less than the equivalent amount of Saskatchewan's minimum wage salary (~ \$22,500).

7. GSA President's meeting with Dean of CGPS, June 29, 2022

The GSA president met the Dean of CGPS, Dr. Debby Burshtyn, at her office and discussed the following issues:

- a. Strategies to help graduate students to minimize the risk of academic misconduct (e.g., plagiarism, research ethic, etc.). The GSA president requested to make the ethics course mandatory for all graduate students. The CGPS dean asked the GSA president to bring a motion at the Academic Affairs Committee meeting in Fall 2022.
- b. Possibility of awarding a course-based or research-based MSc degree to a student who struggles to complete a Ph.D. degree for various reasons.
- c. Minimum guaranteed funding (not less than \$22,500/year) for Ph.D. (4 years) and M.Sc. (3 years) students
- d. A university-wide introduction of graduate parental benefits (a paid leave)

8. Meeting with University of Saskatchewan Faculty Association Chair, June 13, 2022

The GSA executives meet with the newly elected University of Saskatchewan Faculty Association Chair, Professor Nadeem Jamali, on June 13, 2022. The GSA executives shared their election platforms with Professor Jamali and explained to him how each election platform would bring positive change to graduate students' life and wellbeing. Further, the GSA executives requested Professor Jamali and the faculty association's open support for GSA's advocacy work at various university forums.

They emphasized the need for more doctors and health care professionals in the studentcare network.

10. Helping Graduate Students with Academic Issues

The GSA President and VP of Academic and Student Affairs are helping several graduate students on various issues, including academic misconduct, conflict with a supervisor, and eviction from the university. Because of confidentiality, no further details can be disclosed.
